

What is the Infiniti Fitness Club?

When you purchase an INFINITI SPORT SERIES* treadmill, you will receive a 1 year membership in the INFINITI FITNESS CLUB, powered by Interactive Health Partner. This is one of the most innovative features we have seen come onto the market.

- ✓ An online personal trainer at home!
- ✓ Allows the user to track and manage your fitness and health results.
- ✓ Automatically downloads workout data from select SPORT Series treadmills onto the USB provided.
- ✓ Receive motivating email support as you work toward achieving your fitness goals.

How It Works

While you workout on the SPORT SERIES treadmills your exercise results are automatically saved onto your INFINITI USB.

- ✓ Simply plug in the USB device, the console recognises you, and you start exercising.
- ✓ The USB is personalised with your age, gender and weight, so you bypass setup screens and records accurate results based on your data.
- ✓ Every 20 seconds during your workout, the console records all your data onto the USB.
- ✓ Then simply upload your results to your personalised online account on your computer.
- ✓ A full set of detailed reports and fun facts show your exercise results.

* SS1200i, SS3000i & SS4000i only
