

Durability Safety Reliability & Performance

“Durability & performance are the focus of Loumet’s manufacturing, making the Loumet fitness ball the safest and most reliable fitness ball on the market today.”

These Australian made fitness balls deliver the durability & safety required for everyday exercise.

Their burst resistance rating of 350 kilograms is 3 times greater than imported fitness balls.

They have a superior resistance to stretching, deformation, wear & tear.

Loumet balls hold their shape and stay round when exercising, helping you get stronger and leaner, faster.

Made specifically for the professional sector, Loumet balls by far outlast cheaper imported balls.

Loumet fitness balls are favoured Australia wide by gymnasiums, fitness studios, physiotherapists, fitness trainers, athletes and many other professional users.
